Awards;

Professional Development Award from the School of SFMC
Awards.

Activities:

The March 2025 regular monthly meeting of the USS Alaric was a Star Trek Watch Party that was held at the South Buncombe Branch Library meeting room on March 22. The meeting started with a brief business meeting wherein CO Richard Heim announced the upcoming Region One Summit and discussed possible future away missions, the April meeting, ranks, and that the biennial Alaric officer elections will be held this summer. Then we watched three Star Trek episodes which included ST Enterprise: The Aenar, ST Strange New Worlds: Quality of Mercy, and Star

Trek Short Treks: The Trouble With Edward. CO Heim distributed by email three science articles: Can Earth's Rotation Generate Electricity?; Curiosity rover detects long-chain carbon molecules on Mars -- Fatty acid byproducts could be the remains of microbes, or not; and Dark energy might not be constant after all. Alaric members met in person at a member's home on March 8 for a day of sharing and games. After a pizza meal, we discussed a Nature Astronomy article, "A Deep-Learning Search for Technosignatures of 820 Nearby Stars". We then played two games - Star Wars The Game of Life: A Jedi's Path and Skip-Bo - and watched an episode (The Happily Ever Afters) of The Librarians. As the month ended, the Alaric acquired a SFMC Marine Strike Group unit, the 102nd "Gray Hawks".

Problems: no problems of note.

Comments:

Most Alaric members have full schedules, which limits their time for club activities.

Commanding Officer: Admiral Richard Heim Jr.
Date: March 31, 2025
